## Online Safety

Dear Parents/Carers,

Thank you to all the parents/carers who filled in the parent voice on computing and online safety. We received many replies which will help us to improve the provision of computing and online safety within school. If you have not had chance to take part in the parent voice, please click on the link:

At Worthington, we realise how useful the internet can be to support the learning of children in school. We are also aware of the dangers the internet can hold and we believe that teaching children how to stay safe online is vital. It is important that school, children and parents all work together and take an active role in teaching children about online dangers and how to act safely when using the internet.

We are therefore delighted to announce that Worthington Primary School has shown our commitment to protecting our pupils online and we have worked with National Online Safety to deliver an interactive online workshop for all our parents and carers.

The course can be taken at your own convenience and covers:

- Information about online dangers and the newest platforms
- What online risks to look out for and how to protect your child

Please find below the URL you need to visit to register your account. You will need to complete your details and select "I am a: Parent/Carer" from the dropdown:

<https://nationalonlinesafety.com/enrol/worthington-primary-school>

Once you have registered, you will be able to access the Online Safety for Parents and Carers' course and National Online Safety's Resources (which includes 50+ online platform guides on the latest social media channels and games). This aims to help empower parents with the knowledge to protect their children from the dangers of the internet.

If you have any questions, or trouble accessing the course please contact [support@nationalonlinesafety.com](mailto:support@nationalonlinesafety.com) or school.

Yours sincerely,

Mr Chamberlain.
